RE: 2004 Hall of Fame

Dear Dave,

As we prepare to open our new building that houses manufacturing, warehouse, and office space, we would like to take this opportunity to express our satisfaction with the efforts of Uhl Construction throughout the entire project, as well as to endorse your selection of our new facility as your "2004 Hall of Fame" entry.

At the onset of the project, we were concerned that there could be interferences with the structural components of the pre-engineered Varco-Pruden metal building and Kay Berry's product, but we were consistently reassured by Uhl that this would not be a problem which proved to be accurate. The employees of Uhl Construction Company were professional, cooperative, and completed a quality constructed building on schedule and within our budget.

We hope that you are as proud and satisfied with the final results as we are at Kay Berry, and thank you again for a job well done.

Sincerely,
Kay Berry Manufacturing
