Re: UHL Construction

To Whom it May Concern,

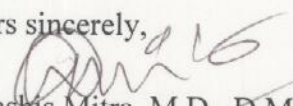

It gives me great pleasure to write this on behalf of UHL Construction. They were contracted to renovate an old building into my new office. They did a phenomenal job, finishing the job on time and did it with a smile. There were a great pleasure to work with and accommodated every one of my needs. All individuals I came in contact with conducted himself/herself in an extremely professional manner and was able to provide concrete answers to questions.

I have developed a special regard for Tim Hengelsberg who led his team extremely efficiently and with due commitment.

I have no hesitation in recommending UHL Construction for any construction work and will be happy to engage their services in the future again when necessary.

If I can provide additional information, please do not hesitate to contact me.

Yours sincerely,

Devashis Mitra, M.D., D.M.
Consultant Rheumatologist
