Dear Dave:

Now that Selectrode is just about settled in to it's beautiful new manufacturing facility, I wanted to take timeout to personally thank you.

Our situation during this project was tenuous to say the least due to the fact that our former building was sold and we had basically 1 year to design, permit and build this high end 50,000 plus square foot building. Thanks to you and your team the mission was accomplished and the building itself is spectacular. I really have to say that we hit a home run when we chose UHL Construction to build our "Dream Building".

The entire Selectrode family thanks you profusely.

Best regards,

Joe Paternoster
Managing Director
